14 BUSINESS PARALEGAL

PARALEGAL

Visit our program website: http://continuinged.vcc.ca/legal; click on "Special Events" for a free orientation.

The Vancouver Community College Paralegal certificate and diploma program is designed for experienced paralegals and legal administrative assistants to increase their knowledge and professional opportunities. All courses are offered in the evenings or online, to accommodate students employed full time in the legal field.

Six core courses provide a foundation of legal principals, which students build on by selecting one of four practice areas: litigation, corporate law, real estate, or family and estate law. Two electives, plus a practicum experience on the job to incorporate your learning into your working life, complete the certificate requirements.

Certificate graduates who complete all four practice areas are eligible for VCC's highest standard of legal professional education, the Paralegal diploma.

PARALEGAL CERTIFICATE PROGRAM

Program Advisor: Christine Williams, 604.443.8649, email: cwilliams@vcc.ca Program Assistant: 604.443.8711

You can complete all the Paralegal Certificate Program requirements in approximately two years of part-time study. For information, visit the program website: http://continuinged.vcc.ca/legal.

Please note: all Paralegal program courses include a weekly tutorial assignment, comprising approximately three hours per week of practical learning experience, which may be completed on the student's own time and is submitted weekly for instructor review.

We would like to assess original artwork, examples of garments you have sewn yourself along with letters of references, transcripts (if applicable) and a resume.

COLLECTION MANUFACTURING (FASH 2302)

With the focus on accurate correlation of design, to flat, to pattern, to construction method and on the necessity to meet deadlines in all areas of the industry; develop time management and costing skills in the manufacture of your collection. Prerequisite: all three practical certificates (12 hours)

COUTURE (FASH 2101)

Develop speed and skill in haute couture methods and the ability to fit and finish to perfection. Couture methods and custom fitting are practised in the construction of the individual designs drafted in Level Three. Prerequisite: Tailoring; Design/Drafting Practical (unless prior permission is granted). (36 hours)

DESIGN DRAFTING-PRACTICE (FASH 1303)

This course provides for the practical application of the principles and methods learned in Level Two Theory classes. Full-scale design/drafting exercises cover the basic adaptations and constructions in standard sizes. Use individual Blocks to draft accurate flat patterns for your own designs in preparation for the Level Four Couture course. (36 hours)

DESIGN PATTERNS DRAPING (FASH 2102)

Learn the techniques and use of draping for design and pattern making. Develop skills in draping your own designs and copies on the dress form and in translating the 3D pattern to a flat pattern. Using the appropriate method, make flats and/or draped patterns for an individual collection. (36 hours)

FASHION DRAWING (FASH 1101)

The fashion designer must be able to draw, not only to illustrate his/her work, but to execute accurately proportioned "working drawings" for production purposes. The study of anatomical and garment proportions will develop skill in making technical drawings for use by pattern makers and manufacturers. Drawing from the fashion model, experimenting with a variety of media, and fabric rendering will develop an individual style of fashion drawing. (36 hours)

HISTORY OF FASHION (FASH 1301)

A study of the evolution of western fashion from early Europe to the 20th century provides the designer with an understanding of the development of fashion and the ability to apply this knowledge to current and future fashion. The course promotes research and provides design inspiration, with the student demonstrating personal interest in the completion of an individual design project or reproduction garment. (36 hours)

P/T COLLECTION PORTFOLIO (FASH 2305)

Complete presentation fashion drawings, detailed flats and fabric swatches for your individual collection, assembling these in a Portfolio for a job application. Particular attention is paid to the overall design and presentation of this collection portfolio. Prerequisite: all three practical certificates (21 hours)

PHOTOSHOP FOR FASHION (FASH 1410)

This course will introduce skills used to transform handrendered illustrations by applying a variety of tools. Using the toolbox and palettes, apply a variety of effects, fill selections and use layers for composite images. Make technical adjustments using colour corrections, tonal adjustments, filters, levels and adjustment layers. Explore photo enhancements using various masks, clipping groups and fill layers. (48 hours)

SEWING TECHNIQUES/APPLICATION (FASH 1105)

Learn industrial and couture sewing methods to understand design/drafting possibilities and limitations in mass production. Produce sample garments using industrial construction on methods and working at industrial speeds. (48 hours)

TECHNICAL FASHION DRAWING (FASH 1251)

Understand the different uses and kinds of technical fashion drawing. Convey design ideas using technical drawings and terminology to accurately specify proportion, style and detail. Learn to draw accurately by hand and through the use of Adobe Illustrator software. (36 hours)

FASHION ARTS DIPLOMA PROGRAM

Program Coordinator: Judy Ho, 604.443.8387, judyho@vcc.ca Program Assistant: 604.443.8677 Website: www.vcc.ca/FashionArts

This program has been designed to produce graduates with the highly desirable combination of creative flair and technical competence. This is achieved throughout the program by developing both creative ability and an awareness of technological and business applications.

The Fashion Arts Diploma Program is a 2-year program. In both years (9 months each year) Classes consist of 24 hours of class instruction and a minimum 6 hours of Directed Study per week. In general, it is necessary for students to complete the entire program over a two-year period to maximize the scope and depth of study in this highly structured and comprehensive program. Classes are offered 3.5 - 4 days/week, 9am to 5pm. A Fashion Arts Diploma is awarded to those who complete this program. Graduates can transfer credits to other design programs based on transcript/portfolio strengths.

For a detailed program guide, email fashion@vcc.ca, call 604.443.8484 or visit our website at www.vcc.ca/fashionarts

PATTERN DRAFTING THEORY (FASH 1211)

Gain the theoretical knowledge necessary for accurate flat pattern making, and an understanding of the inherent design possibilities and limitations. Study the principles and methods of flat pattern drafting, and produce comprehensive reference notebooks illustrating all basic adaptations and constructions in 1/5 scale. (48 hours) \$395

12 wks Tu. Jan 08 09:00 - 13:00 DTN CRN 10052

TECHNICAL FASHION DRAWING 1 (FASH 1213)

Adobe Illustrator is a popular, powerful drawing tool used by many apparel companies for flats, fashion illustrations, and catalogue development. Learn the basic tools used in drawing with Adobe Illustrator software for fashion-related work. Understand the different uses and kinds of technical fashion drawing. Convey design ideas using technical drawings and terminology to accurately specify proportion, style and detail. Be able to draw accurately by hand and through the use of computer software. (48 hours) \$395

12 wks Tu. Jan 08 14:00 - 18:00 DTN CRN 10050

PERSONAL BLOCK CONSTRUCTION (FASH 1214)

Draft a set of individual blocks. Have the opportunity to custom measure and fit the blocks for personal or custom clientele, and be able to understand the actual fit and silhouette of these drafts. (18 hours) \$155

6 wks Fr. Feb 15 13:00 - 16:00 DTN CRN 10051

REQUIRED COURSES to be scheduled in upcoming terms:

BLOCK CONSTRUCTION (FASH 1102)

Understand the current figure/fashion shape in order to draft contemporary patterns. Learn these fundamentals by constructing a set of Blocks (Slopers) in standard sizes for industrial pattern making, and a set of Blocks in individual sizes for custom work. (36 hours)

COLLECTION DESIGN 1 (FASH 1312)

Learn how to design seasonal, theme, and specialist collections and develop a clothing line. Continued awareness of current and developing trends are discussed. Collaborative work in team design is practiced as well as individual design projects. Development of presentation skills with flats, sketches, illustrations and storyboards. Emphasis on personal design interest and philosophy helps formulate ideas for your individual collections - in particular the collection which will be presented at the Graduate Fashion Show. (36 hours)

COLLECTION DESIGN 2 (FASH 2113)

Understand industrial realities in the design of specific collections. Determine individual collection design direction. Emphasis on personal design interest and philosophy helps formulate ideas for your individual collections - in particular the collection which will be presented at the Graduate Fashion Show. (36 hours)

COLLECTION MANUFACTURE/STUDIO (FASH 2310)

With the focus on accurate correlation of design, to flat, to pattern, to construction method and on the necessity to meet deadlines in all areas of the industry; develop time management and costing skills in the manufacture of your Collections. (144 hours)

COMPUTER AIDED DRAFTING 1 (FASH 2114)

Develop an awareness of the various CAD systems used in the apparel industry. Computer based terminology and skills will be developed. Be able to transfer manual pattern drafting and manipulation skills to computer based drafting and manipulation. The digitizing, plotting, and marker making process will be used. Problem solving skills in creating new styles, professional work habits, interpersonal and time management skills will also be developed. (48 hours)

22 DESIGN FASHION ARTS

COMPUTER AIDED DRAFTING 2 (FASH 2212)

Focus on a series of complete production patterns generated from pictures or flats provided by the instructor. Draft full production patterns, completely graded and with markers included. Interpret the flat/design, understand and identify the drafting concepts and challenges, and execute the drafting techniques to completion. Have the opportunity to work on your original designs. (48 hours)

COMPUTER APPLICATIONS (FASH 1111)

A comprehensive look at a variety of computer programs such as: MS-Word, Excel, Power point, Internet Explorer, Outlook, as well as Internet fundamentals. Topics such as basic networking, email systems, and newsgroups will also be covered. (36 hours)

FABRIC AND TEXTILE STUDIES (FASH 1115)

Gain the information necessary for the selection of suitable fabrics for specific designs and for the production of realistic designs for specific fabrics. Study the development, characteristics, use and care of natural, synthetic and semi-synthetic fabrics; as well as textile law and regulations. (54 hours) \$450

COSTUME HISTORY (FASH 1113)

A study of the evolution of Western fashion from the late Middle Ages to the 20th Century, arranged according to cultural and chronological periods. Lectures from the perspective of film and theatre costume development and design are enhanced with visual material examine changes in styles, fabrics, and colours, while major fashion evolutions are discussed along with the social changes that precede and accompany them. This course promotes research and provides design inspiration, with the student demonstrating personal interest in the completion of an individual design project. (54 hours)

COUTURE SEWING (FASH 2112)

Develop skills in higher level production methods and the ability to fit and finish to perfection. Couture methods and custom fitting are practised in the construction of the individual designs drafted in Level Three.Prerequisite: Tailoring; Design/Drafting Practical (unless prior permission is granted). (48 hours)

DESIGNER PATTERNS AND TOILES (FASH 2111)

Produce patterns and toiles in preparation for the manufacture of a Collection. Learn how to make professional toiles as "sample garments" to plan the sewing construction with consideration to garment type and fabric, using fit models to finalize pattern proportion and detail. Develop working drawings and specification sheets to ensure accuracy, speed and efficiency in manufacture. (72 hours)

DRAPING TECHNIQUES (FASH 2110)

Learn the techniques and use of draping for design and pattern making. Develop skills in draping your own designs and copies on the dress form and in translating the 3D pattern to a flat pattern. Drape the basic bodice, cowl necklines, draped designs for a skirt, as well as a variety of collars. (24 hours)

FABRIC AND TEXTILE STUDIES (FASH 1115)

Gain the information necessary for the selection of suitable fabrics for specific designs and for the production of realistic designs for specific fabrics. Study the development, characteristics, use and care of natural, synthetic and semisynthetic fabrics; as well as textile law and regulations. (54 hours)

FASHION PROF PRACTICES 1 (FASH 1171)

A successful fashion business must have a solid concept backed by market research and feasible financing. The role of the designer entrepreneur and techniques for marketing and merchandising apparel products are covered. The structure and organization of fashion-related businesses are discussed. Key elements in conceptualizing, launching and operating a business venture are identified. Establish strategies for line development and individual business concepts. (36 hours)

FASHION PROF PRACTICES 2 (FASH 1172)

Career development and preparation for seeking employment in the apparel industry is the focus of this course. Write cover letters and update individual resumes for industry positions as well as discuss interview procedures. Leadership skills, networking and mentoring aspects of career development are introduced. (36 hours)

FASHION SHOW PREPARATION (FASH 2303)

These workshops provide practical experience in the planning and production of fashion shows. Plan, choreograph and present a mini-collection of your designs in the Graduate Fashion Show. (24 hours)

ILLUSTRATION AND DESIGN 1 (FASH 1112)

The fashion designer must be able to draw, not only to illustrate his/her work, but to execute accurately proportioned "working drawings" for production purposes. The study of anatomical and garment proportions will develop skills in making technical drawings for use by pattern makers and manufacturers. Drawing from the fashion model, experimenting with a variety of media, and fabric rendering will develop an individual style of fashion drawing. Elements and principles of design. Quality of finishing for final presentation of work is emphasized throughout. (72 hours)

INTRODUCTION TO FASHION (FASH 1110)

This course provides a platform for all areas of the apparel industry. Be introduced to the business of fashion, the various careers in the industry, the components of fashion, designers and terminology. Gain a greater appreciation for fashion today based partially on historical references and ethnic and cultural influences. Learn to correctly identify garments as a whole and the design components that make up a garment. Silhouettes, construction techniques, specific elements, trims and details, accessories and textiles will be covered from a wide variety of resources. An essential course for the fashion designer, merchandiser, retailer, and the consumer to understand and relate to other fashion professionals. (36 hours)

INT VISUAL COMMUNICATION (FASH 2211)

Graphic design principles are covered in the production of individual business cards, programs and other promotional materials for the graduate fashion show. Develop concepts for a range of promotional materials including hang tags, logos, labels and press kits.

PATTERN DRAFTING PRACTICAL 1 (FASH 1310)

This course provides for the practical application of the principles and methods learned in Level Two Theory classes. Full-scale design/drafting exercises cover the basic adaptations and constructions in standard sizes. Use individual or standard sized Blocks to draft accurate flat patterns for your own designs in preparation for the Level Four Couture course. (48 hours)

PATTERN DRAFTING PRACTICAL 2 (FASH 2115)

Demonstrate and execute advanced pattern drafting skills by completing patterns for tailored jackets, and designs using the bra top block. All inner workings such as facing linings, pocketings, foundation structures are covered. Drafting for knits will also be demonstrated. (48 hours)

PHOTOSHOP FOR FASHION (FASH 1410)

This course will introduce skills used to transform handrendered illustrations by applying a variety of tools. Using the toolbox and palettes, apply a variety of effects, fill selections and use layers for composite images. Make technical adjustments using colour corrections, tonal adjustments, filters, levels and adjustment layers. Explore photo enhancements using various masks, clipping groups and fill layers. (48 hours)

PORTFOLIO DESIGN 1 (FASH 2210)

Complete presentation fashion drawings, detailed flats and fabric swatches for your individual collection, assembling these in a Portfolio for job application. Individual portfolios which provide visual evidence of creative technical and organizational skills are produced. Particular attention is paid to the overall design and presentation of this Collection Portfolio which highlights personal strengths, design philosophy and style. (36 hours)

PORTFOLIO DESIGN 2 (FASH 2312)

Design and create a promotional presentation for individual collections. Digitally mastered portfolios, "look" books, catalogues, and other promotional brochures are produced. (36 hours)

PRODUCT DEVELOPMENT (FASH 1252)

Study and apply brand building methods to a mass market line. Working in small groups, develop and choose appropriate fabrics, trim, graphics, labelling and accessories to reinforce the brand of a local mass market line. Develop the ability to brand on a "shoe-string" budget without advertising aids. (36 hours)

PRODUCTION PATTERNS GRADING (FASH 2203)

Learn the skills necessary to produce accurate patterns for the apparel industry. Develop production patterns with consideration of construction methods and garment type, the development of grade tables, grading techniques and procedures, lay-planning and markers. (36 hours)

FASHION ARTS / GEMMOLOGY AND JEWELLERY

SEWN PRODUCT TECHNIQUES (FASH 1114)

Become familiar with industrial and couture sewing methods to understand the design/drafting possibilities and limitations in mass production and to identify the sewing techniques to be used for couture garments. Learn to use industrial machines and sergers, and compile a binder of samples using industrial and couture methods. (48 hours)

STUDIO LAB A (FASH 1315)

Demonstrate your understanding of design drawing, pattern making and garment construction techniques. Work on individual assignments in the labs with an instructional aide. (36 hours)

STUDIO LAB B (FASH 2116)

Demonstrate your understanding of design drawing, pattern making and garment construction techniques. Work on individual assignments in the labs with an instructional aide. (36 hours)

STUDIO LAB C (FASH 2213)

Demonstrate your understanding of design drawing, pattern making and garment construction techniques. Work on individual assignments in the labs with an instructional aide. (36 hours)

STUDIO LAB D (FASH 2313)

Demonstrate your understanding of design drawing, pattern making and garment construction techniques. Work on individual assignments in the labs with an instructional aide. (36 hours)

TAILORING TECHNIQUES (FASH 1311)

The designer/pattern maker must have a sound knowledge of all types of garment construction in order to be able to design realistic garments and to make accurate, well-fitting patterns. This course combines the study and practice of machine tailoring with that of hand tailoring, providing a link between mass production and haute couture methods of garment construction. Learn to fit by making a tailored jacket to your own measurements. (36 hours)

TECHNICAL FASHION DRAWING 2 (FASH 1314)

Using advanced Adobe Illustrator techniques specific to fashion, continue to develop your skills. Projects include creating croquis templates, trim and stitch libraries, and catalogue development. (36 hours)

TEXTILE SURFACE DESIGN & LAB (FASH 1313)

Experiment with the manipulation of fabrics and textiles to create a variety of surface designs and textures. Using fiber-reactive dyes, household bleach, fabric paints, waterbases resists, photocopy transfers, foil, as well as silk screening, Shibori, and devore techniques. Explore and develop more advanced techniques in a final assignment. (72 hours)

GEMMOLOGY & JEWELLERY

Get started on a great career in jewellery or gemmology design at Vancouver Community College. The college is affiliated with the Canadian Gemmological Association and the Gemmological Association Gem Testing Lab of Great Britain and is pleased to offer the Canadian Gemmological Association's (CGA) two-year diploma program in gemmology.

CANADIAN GEMMOLOGICAL ASSOCIATION DIPLOMA PROGRAM

Program Coordinator: Donna Hawrelko, 604.443.8670 Program Assistant: Kevin Coutts, 604.443.8677

This professional program covers the scientific, aesthetic and historic aspects of gemmology. Emphasis is placed on learning how to use the equipment currently available to gemmologist. Gemmologists are certified in Canada by the Canadian Gemmological Association after an extensive program of study leading to a final exam. This intensive, part-time, two-year program requires regular classroom attendance, considerable home study, weekly homework, regular quizzes, and a final exam. Upon successful completion of the exam, you will be certified as an internationally recognized gemmologist.

Become skilled with a wide range of gemmological equipment and learn to test and identify a variety of gemstones. Learn to differentiate between natural and synthetic gemstones as well as treatments and enhancements. Diamond grading, coloured stone grading and appraisal formats are also studied.

Please note that the study of gemmology requires the use of toxic chemicals including methylene iodide. You will be requested to wear protective glasses, gloves and apron.

ENTRANCE REQUIREMENTS:

 Secondary school or equivalent (may be waived if students have work experience in jewellery or gemstones).
 English language skills and comprehension.

ELECTIVE COURSES:

26 HEALTH SCIENCES AND HUMAN SERVICES COUNSELLING

COUNSELLING

Begin your counselling training at VCC – we make it easy for you to work and study at the same time.

VCC's two part-time evening Certificate Programs in Substance Abuse and Counselling Skills provide the theoretical framework and foundational skills to individuals who are making a career change into the counselling field or those currently working in the social services field and who want educational credentials.

Experiential, practical, topical and transformational, the program is taught and designed by practicing professionals. Students become familiar with current trends in psychology and counselling and are exposed to leading edge practices in the social services profession. They will develop a network of professional contacts in their chosen fields. Eightyfive percent of students find related employment and many are working before they graduate.

Tuition for each certificate is approximately \$3200. Students are not required to pay for the whole program, but can register and pay for individual courses each term as they proceed through the program.

For more detailed information, please visit **continuinged.vcc.ca/cnsk** attend an information session or contact the program coordinator or program assistant.

INFORMATION SESSIONS: WEDNESDAY DECEMBER 12, THURSDAY JANUARY 3, 2008 OR WEDNESDAY MARCH 26, 2008 6:30 PM ROOM 420

Interested in working as a settlement worker, a family support worker, a job club facilitator or in a variety of other positions within the social services or corrections field. Then this Program is for you.

Designed for those who have an interest in pursuing a career in the helping profession OR for those currently practicing in the field, this program integrates counselling theory with skill practice and provides thorough evaluation and feedback.

Courses in this program meet some of the educational prerequisites for those students considering graduate studies in Department of Education and Counselling Psychology, and Special Education at UBC.

This program has an excellent reputation in the community and Ministry of Education surveys conducted over the past five years place our employment success rate at over 85%.

Students can complete this certificate in 15 months to three years and can choose to attend school one or two evenings per week for three to six terms. Courses are experiential, practical and topical and taught by experienced, practicing clinicians. A Practicum completes the program and students already working in the field can choose to complete their Practicum at their worksites.

Required Courses: Theories of Counselling, Individual Counselling, Personal and Professional Development, Assessment and Referral and Community Resources

In considering a free-lance career you will face many questions and decision making issues, from how to be self employed to finding possible opportunities and how to access them (health and legal services, business sector, various levels of government, immigration, Olympic Games and tourism). Led by an experienced freelance translator and interpreter, this two-night interactive seminar is designed to help orient new and aspiring entrepreneurs, to provide useful tips and information, do's and don'ts, benefits and pitfalls of this field.

LEGAL ASPECTS OF INTERPRETING (INTR 1160)

This interactive seminar will focus on various aspects of law as they affect the professional and contractual rights and responsibilities of self-employed interpreters (as such it will be of limited benefit to translators). The following areas of law will be addressed: contract, including effective billing practices; tort, including negligence and negligence misstatement; fiduciary duty; codes of professional conduct. The instructor is a lawyer who has worked for 18 years with interpreters. (3 hours)

MENTAL HEALTH INTERPRETING (INTR 1179)

Learn about the unique characteristics of mental health interpreting. In this course participants, who are already proficient in medical interpreting, will learn how to effectively work in the specialized field of mental health interpreting, and will develop an appreciation for this distinct role. The training will also explore cultural differences in approaches to health and mental health and culture as an element of mental health care setting.

QUALITY IN TRANSLATION (INTR 1180)

This workshop is designed for anyone interested in quality in translation. We will look at translation as an art and craft, the translation process, stakeholders, quality control including standards, benchmarks, measurements and process, and discuss how some of these concepts may be applied to the field of translation. Workshop participants are expected to make constructive contributions. (6 hours)

SO YOU WANT TO BE A TRANSLATOR (INTR 1185)

Overview of translation as a profession, including education and training (how do I become a translator?), translation as a craft and an art (what is translation?), translation as a career choice (freelance work vs. employment), and next steps for budding translators (building your career).

FINDING YOUR WRITER'S VOICE (CWRI 1143)

Many aspects of our society silence our creative writing from early childhood onwards. We become afraid of it, or even worse, convinced we can't do it. Even those of us already engaged in writing often find ourselves stuck, blocked, confused and confounded by some aspect of our work. These workshops are designed to help you discover the many astonishing factors - emotional, cultural, educational - that inhibit and/or enhance your writing, and help you to make your writing flow the way it is supposed to. Instructor: Dari Rank (18 hours) \$241

MANDARIN SCHOOL FOR CHILDREN AND YOUTH

Let your children learn their native, family language or open up opportunities for English-speaking children with a bilingual education. Prepare your children to succeed in B.C.'s changing economy by enrolling them in part-time weekend classes at VCC's Mandarin School for Children and Youth, offering preschool through Grade 12 courses in reading, writing and conversation.

Taught by native Mandarin speakers, your child will learn both traditional and simplified written characters, which are taught in separate classes; please specify your option at registration.

There are take-home assignments for every session. Report cards on the progress of each student are issued twice a semester. A graduation certificate will be issued to students who have completed the elementary or secondary levels.

CHILDREN AND YOUTH MANDARIN EDUCATION

Program Coordinator: Shirley Luk, 604.443.8696, sluk@vcc.ca Program Assistant: Christina Wong, 604.443.8335, chwong@vcc.ca

In the Grade level courses, children will learn traditional characters, vocabulary, sentence structure, and short passages at the specified Grade level. The "Simplified" Grade level courses cover simplified characters, vocabulary, sentence structure, and short passages at the specified Grade level.

Winter semester for VCC's Mandarin School begins February 9, 2008 for students from four to 20 years old. Since both the traditional and simplified version written characters are taught in separate classes, please specify your option at registration. Fee includes textbooks, exercise books, duotangs and hand-outs.

DIPLOMA IN NETWORKING TECHNOLOGY

Program Assistant: 604.443.8711 Course Advisor: Rhyon Caldwell, 604.443.8544, rcaldwell@vcc.ca

INFORMATION SESSION: WEDNESDAY, JANUARY 9, 2008 17:30-18:30 ROOM 218B

This advance diploma has been designed to provide students with substantially more expertise in computer networking technologies. These courses are individual industry recognized certifications leading to a VCC diploma in Networking Technology. Students who have completed the Information Technology Specialist (ITS) program or the Computer Application Support Specialist (CASS) or other post-secondary certificate in computer studies may apply for the diploma in Networking Technology from Vancouver Community College.

Only three or four of these courses will be offered during each semester. It is recommended, but not mandatory, that students take either NETT 2113 or NETT 2119 first. Students who complete 8 credits may apply to take the Directive Studies NETT 2206. This is a self-directed, project-based course. Using the skills acquired during the program, students are expected to propose a project in an area they wish to study. Projects will include developing a major working system. Exemptions will be given for certifications already obtained.

If the student has the ITS certificate or equivalent they may apply for the Diploma in Information Technology. Students must take NETT 2113, NETT 2122 as required courses. Students can select 2 electives totalling 8 credits. Students must complete the directive studies course to graduate.

REQUIRED COURSES:

Networking Fundamentals (NETT 2113) Directive Studies (NETT 2206) Managing Info Technology (NETT 2122)

ELECTIVE COURSES:

Hardware Infrastructure (NETT 2119) Client Support (NETT 2116) Linux (NETT 2136) Network Infrastructure (NETT 2104) Networking Security (NETT 2105)

REQUIRED COURSES currently scheduled:

NETWORKING FUNDAMENTALS (NETT 2113) This course will prepare students to write the Microsoft Certified Professional (MCP) exam. Students will learn how to navigate the OS environment, install XP, use administrative tools such as MMC, task scheduler and the control panel, manage Windows file system, create users and groups, cover XP security, networking protocols, updating the registry, and general troubleshooting techniques will be covered. Students will be prepared for employment positions such as networking support, user/client support, computer help desk, etc. Prerequisite: general Windows experience. Instructor will advise on course text. (30 hours) \$525

REQUIRED COURSES to be scheduled in upcoming terms:

DIRECTIVE STUDIES (NETT 2206)

This course is a self-directed, projected-based course. Using the skills acquired during the program. Students are expected to propose a project in an area, which they wish to study. Projects will include developing a major working system including all phases of development.

MANAGING INFO TECHNOLOGY (NETT 2122)

The Project+ is designed for IT business professionals involved with projects in a technology environment. The candidates will learn cumulative knowledge in leading, managing and directing small to medium scale projects. Project+ examines the business, interpersonal and technical project management skills required to successfully manage projects and business initiatives with a technology component. (30 hours)

ELECTIVE COURSES currently scheduled:

HARDWARE INFRASTRUCTURE (NETT 2119)

This course prepares the student to write the A+ certification exams. Students will learn to assemble, configure and install a complete computer in class. Explore the hardware and software to build a computer. The student will learn how to configure hardware using MS Windows 2000/XP. Topics include Internet connectivity, how to buy a PC, Internet configuration, virus scanning, file recovery and general PC maintenance planning. Class size is limited to 16. This course is taught in a specially design room with computer bench and recourses founding the PC hardware industry. The instructor will advise class on text book. (30 hours) \$595

10 wks We. Jan 23 18:00 - 21:00 DTN 🕫 CRN 10237

ELECTIVE COURSES to be scheduled in upcoming terms:

CLIENT SUPPORT (NETT 2116)

Learn to create and negotiate a Service Level Agreement with customers, understand how business demands translate into technical requirements, from a financial, availability and capacity perspective. Design and implement a simple process within an organization. Learn to identify and describe the most important support and delivery processes in an IT organization or department. Assess the processes within an organization and present findings and advise on next steps to management. Gain skills to support processes (incident management, problem management and change management) that contribute to the quality of services delivered to customers. Position all ITIL support and delivery processes within an organization and understand how ITIL processes relate to the EXIN/ISEB exam. Learn how planning processes contribute to the proactive improvement of the delivery of promised services.

LINUX (NETT 2136)

This course is designed to help prepare the student to write their Comptia Linux+ exam. Students will be taught to install, configure and maintain a Linux system in various workstations and server roles. (30 hours)

46 TECHNOLOGY COMPUTERS

NETWORK INFRASTRUCTURE (NETT 2104)

This course is designed to prepare the student to write the Comptia Network+ certification exam. Students will learn hands-on training and experience in current and emerging networking technologies. Emphasis is placed on giving the student a strong conceptual understanding of the OSI model and industry networking standards. Specific topics include LANs, WANs, routers, network protocols, the OSI model, cabling, cabling tools, network topologies and IP addressing. Also covered are network trouble-shooting techniques and the use of networking software, tools and equipment. An excellent course for the beginning network administrator or experienced professional seeking enhanced skills.

NETWORKING SECURITY (NETT 2105)

This course is designed to prepare the student to write the Comptia Security+ Certification exam. Students will learn general security concepts, communications security, infrastructure security, basics of cryptography and operational/organizational security. (30 hours)
