3) CONGRATULATIONS!

Congratulations to Rita Katzel, Mary Hardy and all faculty, staff and students who made KEC's first Health Fair such a resounding success. It was great to see the enthusiasm and interest of so many people participating in the activities of the fair - which is a potent indicator of the need for knowledge and information relative to health matters.

Hopefully the fair will become an annual event.

Again, congratulations and many thanks!

J.D.B.

4) HEALTH FAIR

Blue ribbons, medals, or whatever! - are due to Rita Katzel and Mary Hardy, our Community Health Nurses, for organizing that most successful Health Fair last Wednesday and Thursday. It represented hours and days of hard work, and the large turnout of students, instructors and visitors was a testimony to its usefulness and interest.

No money rewards, of course, just honour, but lots of that!

G.N.

8) AIR AND HEATING SYSTEM

Louis Moulin and the Engineering staff have been working very hard to ensure that rooms on campus are comfortable. They have just finished balancing the air system - it costs between \$2,000 and \$3,000 to do - and have checked temperatures and humidity levels in all areas. But it will all have been in vain unless everyone co-operates. Please follow these directions:

- (1) do not open windows
- (2) do not adjust thermostats
- (3) do not adjust dampers.

Please remember that in attempting to adjust conditions in your area, you will likely affect several rooms. It would be especially appreciated if all faculty would seek the co-operation of students in leaving the problems of the heating system to the engineers. If there are genuine complaints, please refer them to me and I'll refer them to Mr. Moulin. Many thanks for your co-operation and help.

9) MALE OR FEMALE?

Please help me. No one here so far can. I have received an application for employment from a Tzippy Schecter. Do I address the envelope to Ms or Mr Schecter? The contents of the envelope don't help me.

10) GOARD COMMISSION REPORT

The "Report of the Commission on Vocational, Technical and Trades Training in British Columbia", otherwise known as the Goard Commission Report has been published and there is now a copy in our library.

On October 8, 1976, Colin Casey, Robert Cunningham and Rosemary Meyer presented a brief to the Commission on behalf of King Edward Campus.

Recommendations, from page 48 of the report, which follow, show that the Commissioners took cognizance of the King Edward Campus recommendations:

"In response to the special situation in which women in the labour force find themselves, the commission recommends that:

Vocational preparation courses, such as basic training for skill development, women's exploratory apprenticeship programs, employment orientation for women, and basic job-readiness training, and other similar pre-training opportunities, be expanded and made available to women throughout the province.

Opportunities for training in the trades through apprenticeship, pre-apprenticeship, pre-employment, and on-the-job training be offered to women in accordance with their abilities and potential for qualification in all types of occupations.

In response to the identified special needs of certain citizens, including immigrants, the commission recommends that:

Vocational preparation programs, such as English-language training, basic training for skill development, basic job-readiness training, employment orientation for women, programs on deafness, and trained community aide, be recognized as vocational and continue to receive vocational funding and support. (The essential nature of these programs is unanimously endorsed -- the method of financing is not.)

.....con't.

10) continued

There is much in the report which should be of interest to faculty and students at this campus.

MUSIC DEPARTMENT NOTES:

The Jazz and Commercial Music Program in the Music Department is in the process of really putting King Edward Campus on the map. (All we have to do is find out where on the map to put it.)

Two weeks ago, Dave Robbins and the Stage Band put in a rather long Saturday afternoon at Little Mountain Sound Studios, putting together a taping for CHQM Radio. The Radio Station is doing a series of programs on Sunday evenings, featuring Vancouver student musicians.

The tape sounded so good when finished that the Management at Little Mountain are urging CHQM to give the Stage Band a time slot in a time when ratings are highest and, after that, the decision was made to make a commercial product of the tape.

More on this to come, as the tapes will be produced and ready for sale in about six weeks.
