2) COLLEGE COUNCIL MEETING

The College Council met in regular session on Wednesday, September 25th. The public agenda was somewhat light, with the following items, I believe, being of interest to this campus:

- a) College Principal A.S. Manera's report touched on a number of items of interest, one being the approximate 14% increase in College enrolment over last year's at this time. He also announced the intention of the G.V.R.H.D. (Hospital District) to renew our lease for another two-year period through to June 30, 1981. (Mr. Manera's complete report is in the Library.)
- b) Langara Student Society member, Mark Boyer, announced an agreement with B.C. Hydro whereby post-secondary students will be able to purchase bus passes. (More information on this will be forthcoming shortly.)
- c) A number of RAC's were approved for submission to the Ministry, one of which was our B.T.S.D. (Levels 2 and 3.)
- d) Council member J. M. Kennedy reported on recent M.A.C. developments.

More details respecting the above, as well as the minutes of the August 23rd meeting of Council, are available for your perusal in the Library.

6) "IF" FOR DIETERS - by Edward Cunningham

If you can face the fact that you are flabby  
And weigh more than you'd ever dare divulge,  
If you can dodge dessert and not get crabby  
But gladly fight the battle of the bulge,  
If you can keep your cool when those around you  
Are losing theirs and chomping chocolate pie,  
If you can fast, though chips and dips surround you  
From dawn to dusk, and never once say die,  
If you can watch your neighbors slurp spaghetti  
But stick with soup and savor every bite,  
And scam as fast as Mario Andretti  
Whenever there's a stroganoff in sight,

If you can laugh at all who would unnerve you  
By swearing, "You look better when you're plump!"  
If you can shun the goodies they will serve you  
To wilt your will and make your spirits slump,  
If you can skimp on breakfast, lunch and dinner,  
Resisting all temptations in between,  
You soon will feel the thrill of being thinner  
And what is more - your friends will all turn green!

Principal of  
Vancouver Community College  
King Edward Campus

Dear Sir,

I am attending a course at your college. The teacher in the course is so softly and low speaking that I can hardly understand her. Would you kindly arrange that the teacher would speak louder, so that people could easily understand her.

Respectfully yours,

"Maybe if you used praise to reinforce and encourage good behavior I'd be better."

Sponsored by Adult Education Department and Centre for Continuing Education - The University of British Columbia.

See the faculty bulletin board for the first set of fall program announcements. Several workshops have limited enrolment; so please register as early as possible.

# Well why don't you go back to Sudbury?

By Les Stanwood

...Whidbey Island freelance.

**Y**OU PROBABLY had it happen. You finally persuaded your friends to spend a week of the past summer in British Columbia. Oh, they were reluctant at first — they'd heard stories of incessant rain, stories bandied about by people who didn't know better. But your sincere entreaties and your guarantees of sun and sea brought them out at last.

You picked them up at the airport and drove them home in dread silence — through a steady downpour. And as the days blended together and their fingertips began to wrinkle, you tried desperately to find something to say.

Herewith, some suggestions for next summer:

1. You should have been here yesterday.
2. You should have been here last week.
3. Could you see the mountains from the plane?
4. It usually clears up by noon.
5. You should have been up early this morning, the sun was out.
6. Really, the rain doesn't usually last this long.
7. It's always wonderfully sunny to the east of us.
8. Strange. I don't remember Lytton ever being this rainy before.
9. Isn't it cozy around the fire?
10. Really, it doesn't rain any more here than in Toronto.
11. You should be here in the winter!
12. It's a shame you can't come back in a month or two.
13. Actually, this has been an unusual year.
14. The weather is so interesting here.
15. On Galiano Island they hardly get enough to water the cactus.
16. Well, all this lush foliage isn't going to grow on sunshine alone.
17. The slugs love it.
18. We have some marvellous libraries around here.
19. Don't the arbutus look lovely?
20. It's not so much rain as low fog.
21. It keeps the streets clean.
22. Oh, look! It was 30 degrees in Winnipeg yesterday!
23. You can buy an umbrella anywhere.
24. What luck! We won't have to water the garden this week.
25. There are some magnificent waterfalls out here.
26. Now, the mountains would be sitting right there, and over there you would be seeing Mount Baker....
27. What's happening is that moist Pacific air is hitting the cold mountains and....
28. The rain gear is in the closet.
29. Most people in B.C. are wonderful swimmers.
30. Refreshing, isn't it?
31. You won't need to worry about your sunglasses.
32. There are plenty of fun things we can do in the house.
33. You know, very few people get skin cancer around here.
34. We get a lot of our power from the water; just think of it as a generating station.
35. There was fresh snow on the ridge last night.
36. Plenty of water for the apples this year.
37. It keeps the kids off the streets.
38. Invigorating, isn't it?
39. You ought to see it when the sun comes out.
40. What's happening on the soaps today?
41. Cool, isn't it?
42. Shall we play another game of cribbage?
43. Try a glass, it's very good water.
44. You should see all the different sorts of rain gutters we have around here.
45. It's all those Boeing plants down in Washington.
46. It's the navy's secret plan to keep us safe from attack.
47. It's the Russians.
48. No, actually, most of our suicides are on nice days.
49. Well, I'm sorry you feel that way.
50. Look, if you don't like it, why don't you go back to Sudbury?
