7) CHAIRMAN, TRAINING AND DEVELOPMENT DIVISION

On the recommendation of the Committee struck for that purpose, College Principal, A.S. Manera has appointed E. Colin Casey as Chairman of the Training and Development Division for a second period of three years from January 1, 1979 to December 31, 1981.

Mr. Casey has served the College and, in particular, this Campus, well for a long time and I take pleasure in offering him our congratulations on his re-appointment.

Thank you, Colin, and congratulations!

8) STUDENT SURVEY

You will all have received Dr. Denholm's recent letter concerning the Student Survey. As he has indicated, your co-operation and enthusiasm are essential if the survey is to produce the data required to complete the job of the Market Research Task Force. Indeed, the recommendations of the Task Force will have a powerful impact on the planning process over the next few years.

The Student Survey will provide the College with a data base which heretofore has not been available. It will provide the College - and us as a Campus - with invaluable information with respect to the community we serve.

I know it will cause a disruption - it's a nuisance when instructional time is so short. But I'm convinced it will be worth it.

I know we can count on all of you to elicit the support of your students in completing the survey to the best of their abilities.

Please return the surveys to Rita Shelley, or to me, or to the Main Office as soon as possible after completion. The task of gathering the surveys college-wide, key-punching of data, doing computer runs, etc., is a "horrendous" job, which must begin immediately.

Many thanks for your help, co-operation and patience.

J.D.B. -

on behalf of the Market Research
Task Force
