1) KING EDWARD DAY

In case you missed seeing the postings on the bulletin boards, we would like to point out the error in last week's King Edward Times.

King Edward Day 'festivities' will be held in the PARK Ball Room, NOT the Royal.

Just follow all the familiar faces and I'm sure you will find your way!

3) VISION PROTECTION WHILE OBSERVING THE SOLAR ECLIPSE

Instructors - Please Warn Your Students!
On the morning of Feb. 26th the solar eclipse can be seen in Vancouver between 7:17 a.m. and 9:31 a.m. Dr. Peter Praslowski, President of the Oto-ophthalmological Section of the B.C. Medical Association warns: "Many devices for viewing the eclipse, such as polaroid lenses, filters, smoky glass or exposed film are not completely foolproof since they filter only the visible sunlight, but let through some of the dangerous infrared and ultraviolet radiation."

THE SAFE WAY TO WATCH THE ECLIPSE OF THE SUN IS ON TELEVISION.

Dr. Praslowski says, "Under no circumstance should anyone use binoculars, telescopes or camera lenses, because they can magnify the damaging rays. Staring at the sun can cause permanent damage to the eye in less than a minute and without any pain", the doctor adds.

6) REQUESTS FOR REPAIRS - AUTO MECHANICS & AUTO BODY DEPARTMENTS

Due to an increasing number of requests for repairs, it has become necessary to set out some guidelines for the orderly processing of these requests:

Requests must be made through the Program Assistant in Auto Mechanics (Local 255) and the Instructor in the Auto Body during working hours.

The Instructors will choose their work from the resulting list giving preference to instructional desirability rather than customer need.

Emergency repairs will not be considered.

It has been the policy in the past and shall remain the policy that vehicles accepted by the department should be of common North American manufacture as far as possible.

Bills must be paid on completion of work and before vehicle is released.

7) NEW ROOM NUMBERS

During the last week of April, new numbers will be placed on all rooms at King Edward. Directional signs will be hung and floor plans distributed. The intention is that rooms will be more logically numbered and easier to find.

The new College Foundations summer schedule to be distributed next week will have the new numbers on it.

Please keep the change in mind. A floorplan with both old and new numbers is available now from Rita Shelley in the main office, should you require one.

8) INTERNATIONAL EDUCATIONAL TRAVEL - STUDIES IN EDUCATION

UBC Education Extension announces three programs for 1979:
Denmark: In-depth studies of education and culture;
England: Schools and education in England; and The People's Republic of China: The changing educational scene in agricultural and industrial areas.

For further information, please see announcement posted on bulletin board.
