HAPPY BELATED

SECRETARYS' WEEK!

"No, I can't type very fast at all,  
but I understand none of your  
other executives can either."

3) MUSICAL CHAIRS

Now that Spring and Sunshine are here, several classes are "holding court" outdoors. We're sure this is refreshing and stimulating - but the students are returning to the building and leaving their chairs behind!

We would appreciate having the chairs returned to their proper room before they are "lost."

4) LEARNING CENTRE SUMMER APPOINTMENTS

Two summer jobs as Math/Science and Humanities tutors have been awarded to students Chang San and Wayne Decle respectively. Both San and Wayne worked at the Centre last summer and their selection was based in part on that experience. San has studied at King Ed, Langara and now UBC - a straight "A" student throughout. Wayne studied at Langara before completing his degree at UBC. The Centre is pleased to welcome the contributions of these two people for the next four months.

12) ANSWER TO LAST WEEK'S "BRAIN TWISTER"

"Who Owns the Zebra?" - - -

The Norwegian drinks water, the Japanese owns the zebra!

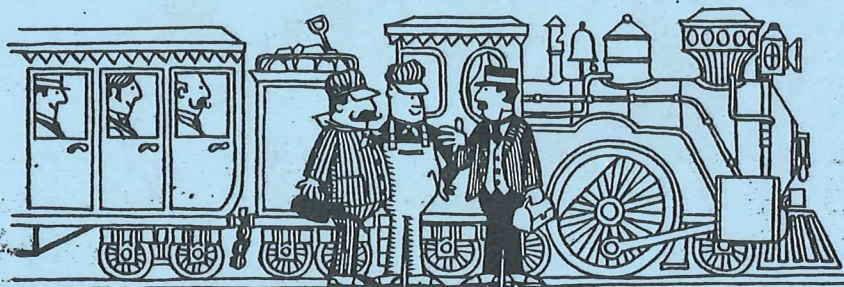

HOUSES	Yellow	Blue	Red	Ivory	Green
INHABITANTS	Norwegian	Ukrainian	Englishman	Spaniard	Japanese
PETS	Fox	Horse	Snails	Dog	<u>Zebra</u>
BEVERAGES	<u>Water</u>	Tea	Milk	Orange Juice	Coffee
CIGARETTES	Kool	Chesterfield	Old Gold	Lucky Strike	Parliament

There were 10 K.E.C. participants who turned in their answers to "Ye Olde Editor". The time it took to solve the puzzle ranged all the way from a mere 15 minutes all the way up to 2 hours! Everyone seemed to have fun trying and NOW - hold on to your hats! We have a "Brain Killer" that will make the other puzzle seem like child's play. Try this one on for size:

## Who Is the Engineer?

The following puzzle, known as the Smith-Jones-Robinson classic, is a lively test of reasoning power. It is reported that, in one group of 240 people trying it, only six came up with the solution. But there is no "catch" in it, and the answer has been worked out by many persons in five to ten minutes. Every fact is important, and must be considered.

On a train, Smith, Robinson and Jones are the fireman, brakeman and engineer, but NOT respectively. Also aboard the train are three businessmen who have the same names: a Mr. Smith, a Mr. Robinson and a Mr. Jones.

1. Mr. Robinson lives in Detroit.
2. The brakeman lives exactly halfway between Chicago and Detroit.
3. Mr. Jones earns exactly \$20,000 per year.
4. The brakeman's nearest neighbor, one of the passengers, earns exactly three times as much as the brakeman.
5. Smith beats the fireman at billiards.
6. The passenger whose name is the same as the brakeman's lives in Chicago.

13) INCOMING SHIPMENTS

In future, the Receiver will check incoming shipments by means of checking the packing slip against the purchase order. He will not be checking the contents of the shipment. It will be the responsibility of the recipient to make sure the shipment is in good order. If not, Steve Baker (Receiver) should be advised in order that he can take the necessary steps to correct the order.
