2) CLOSING TIME FOR INSTRUCTIONAL BUILDING

"Official" closing time of the Instructional Building is 10:30 p.m. I realize that some instructors provide extra help to students after classes end, and that sometimes it might be difficult to finish by the above deadline. However, the Security Staff have a variety of duties to perform; the shift ends at midnight. Accordingly, Security has been told to request everyone leave the building by 10:30 p.m. at the latest. Your co-operation will be greatly appreciated.

3) HAPPY FOREVER TO ROXANNE!

Roxanne Matwick, one of our Switchboard Operators, was married to David Lee on Saturday, October 20.

Roxanne returns to us on Monday, October 29 as Mrs. David Lee.

Best wishes for many happy years together!

M.G.

4) FROM STUDENT HEALTH SERVICES:

The mobile chest X-ray unit will be coming to King Edward Campus the week of October 29 to November 2. It's purpose is to allow the students and staff of the college obtain a chest X-ray as a screening for tuberculosis. We recommend the X-rays for people who have not had this screening in the past two years (especially if they have a positive tuberculin skin test), if they have never had a chest X-ray, or if they have had one over 12 months ago but have a close, recent family history of tuberculosis.

The hours of operation are:

Oct. 29 - 9-12 a.m.; 1-4 p.m.  
Oct. 30 - 9-12 a.m.; 1-4 p.m.  
Oct. 31 - 1-4 p.m.; 5-8 p.m.  
Nov. 1 - 9-12 a.m.; 1-4 p.m.  
Nov. 2 - 9-12 a.m.; 1-4 p.m.

The location will be in the vicinity of 12th and Oak and the time involved for 1 X-ray is minimal.

I would appreciate it if you would also relay the above information to your students.

Jennifer Nagel

5) SOME OF THE REASONS WHY STUDENTS CANNOT SPELL (CORRECTLY) - OR SPELLING MADE SIMPLE:

1. The student may not be able to see the parts that combine to form the whole word. It may be the initial, middle and/or final parts - more often than not, it is the middle and final parts.
2. The student may not be able to hear the parts that combine to form the whole word. It may be the initial, middle and/or final parts - more often than not it is the middle and final parts.
3. The student may not be able to see the whole word as he/she becomes hung-up on one or more of the parts of the word. It is usually the middle and then the final parts that give the difficulty.
4. The student may not be able to hear the whole word as he/she becomes hung-up on one or more of the parts of the word. It is usually the middle and then the final parts that give the difficulty.
5. The student may not be able to visually blend the parts of the word together in order to be able to spell the whole word.
6. The student may not be able to verbally blend the parts of the word together in order to be able to spell the whole word.
7. The student may have heard the initial and final parts of the whole word, but may not have heard the middle part(s).
8. The student may not, consciously or sub-consciously, regard the sequencing of the heard parts of the word to be a priority.
9. The student may not, consciously or sub-consciously, regard the sequencing of the visualized parts of the word to be a priority.
10. The student may not be able to create a mental image of the word or its parts.
11. The student may not be able to remember the whole spoken word.
12. The student may not be able to remember the parts of the heard word. Most often it is the middle and final parts that are not remembered.
13. The student may run parts of other words into the intended heard word if he/she is trying to remember a whole sequence of words.
14. The student may not know the word, or the meaning of the word, in the context of the given sentence.
15. The student may not be able to associate the letters that he/she writes with the sounds that they are given on a regular and exceptional basis.
16. The student may not know the letter combinations which combine to form the irregular sounds, particularly vowels.
17. The student may have a poor visual memory and cannot remember what the word looks like in the written form.
18. The student may just not be able to spell!!!

Or any combination of the above-listed problems.

ARSENIC AND OLD LACE a comedy thriller by Joseph Kesselring OCT. 30 - NOV. 17

ARSENIC AND OLD LACE offers a delightful combination of comedy and suspense.

Who would dare to believe that two innocent, hospitable and charming elderly sisters could ever be accused of harming anything bigger than an ant? Martha and Abby Brewster are far too busy dispensing goodwill and charity to friends and relatives to ever dispense with bodies! Strangers are never allowed in the Brewster cellar, but when Martha and Abby next send nephew Teddy to the depths, will he preside, as President Roosevelt over his cabinet or will he continue work on his excavations? Is the cure for Mortimer's addiction to theatre criticism, pending in his married future with Elaine or will he become an innocent victim of his aunts' eccentricities? When number three nephew Jonathan returns home, along with his boozy partner, Dr. Einstein, why is the Brewster mansion suddenly overcrowded, unable to accomodate all the gentlemen callers who need a resting place?

These questions, and many more, will be answered for you when you come to see STUDIO 58's production of ARSENIC AND OLD LACE. The production is directed by Antony Holland, who promises that ARSENIC AND OLD LACE will be a captivating experience, certain to entertain audiences of all ages.

ARSENIC AND OLD LACE will play nightly, MONDAY - SATURDAY at 8:00 p.m.

Be sure to phone 324-5227 for reservations. There will be a performance Remembrance Day Mon., Nov. 12th.

ARSENIC AND OLD LACE is ideal entertainment for Halloween parties. Call us to arrange a booking for your Halloween party.
