## AT THE LIBRARY

Regular library users will, by now, have noticed the temporary disruption that occurred on Friday, July 17th and Monday, July 20th. This was the first phase of renovation of our Circulation desk. Things are almost back to order now, until the next phase of construction, which may be October. The telephone was out of order for all of Friday, so we hope that those of you trying to reach us, found another way. This may be a good time to advise off-campus callers that there are two ways to call the library. The first way is via the main switchboard, 875-6111 and asking for the specific local. The second way, is calling the library nightline, 875-8205 which rings at the Circulation counter. This is a busy counter, so we ask our callers to use the main switchboard method whenever possible.

*"Before I hand back your tests, I'd just like to tell you how nice it is to know that, in today's atmosphere of high-pressured competition, there are still students who don't give a damn about grades."*
