PAPER RECYCLING

During the summer, the pickup crew will only come when there are 15 or more full boxes.

If you call (local 463, answering machine available) or write me a note please indicate:

- a) The number of full boxes.
- b) The room number where the box(es) are to be picked up.

Note: The pickup crew will not be able to enter locked rooms so in some cases boxes may have to be moved outside the room for collection.

I will phone the pickup crew when I have a list of 15 or more full boxes and their locations. I currently have 9 boxes listed.

LIBRARY BARCODE BLITZ

In case you have been wondering about the people walking around campus wearing black and white T-shirts with what looks like the UPC symbol from your favourite canned vegetable, do not be alarmed! They are but members of the Library's crack team of barcoders, busily working their way through the thousands of items on our shelves.

Barcoding is to be finished by August 08 and the Library will re-open on August 09 at 10:30 a.m. A reminder that interlibrary loans will not be available until after August 29.

CLASS ASSIGNMENTS IN THE LIBRARY

Many classes are now being given library assignments where they must come to the Library (during class time) to research various topics for class debates, papers, oral presentations, etc.

It would be very helpful to reference staff, if instructors would please do the following:

1. ALWAYS notify the Library when you plan to send your entire class. We have limited seating space, and other classes may already have been scheduled to use the Library. Also, we only have one librarian assigned at any time on the information desk; other arrangements to assist your students may be necessary.
2. ALWAYS notify the information desk (local 513) of the topics your class is assigned to research. There is nothing more frustrating to your students (and librarians) than having an entire class looking for information on one or two topics, when in fact the first student into the Library has already depleted our selection.

If we know in advance, we can arrange materials for reserve OR check ahead of time to ascertain that our collection can accommodate your topics.

3. ALWAYS arrange for your students to receive bibliographic instruction to assist them in becoming self-sufficient Library users. You need only call local 513 (the information desk) and schedule a class session where the librarian will explain clearly to your students how to find materials in the Library, the use of the microfiche readers (soon to be computer terminals) and periodical indexes.

By following these three simple measures, you will ensure that your students have positive Library and research experiences rather than negative and frustrating ones. Also, please remember that many KEC Students have not gained a familiarity with libraries (or libraries as we know them) in their pre-KEC lives.

We cannot assume that KEC students know how to use our Library and our main objective is to promote a very positive and successful library experience.
