TIMES THEY ARE A CHANGING...

As a postscript to Tuesday's fire alarm, it is duly recognized that this was Jay (Building Services Manager) and Security's baptism under fire... so to speak.

If the Fire Wardens encountered any deviations (not two-legged deviations!) from the established routine, I'm sure it would be appreciated if they dropped Jay a line or two, so that he can be aware of these breakdowns.

Let's work together and refertilize our garden.

KING EDWARD'S FERMENTATION SOCIETY

Well the first batch of juice is now well on the way to becoming a palatable product! The Vintner Team has completed the first racking of the French Colombard and will undertake the Bordeaux racking this week. The vital statistics so far are as follows:

	<u>Bordeaux</u>	<u>French Colombard</u>
Date: June 11	1060 spg 8% alc.	1050 spg 7% alc.
June 27	996 spg	993 spg

For those who may not already have guessed that the noble art of vinaculture is both a cultural and healthful pastime, the latest WINE ART Newsletter has the following quote, from an American health magazine. "... The study, by French researchers, found that 16 healthy men given 3 or 4 glasses of red wine per day for two weeks experience changes in their blood that

King Edward's Fermentation Society (Cont'd)

reduced the risk of heart attack. For reasons not altogether clear, red wine retards the clumping effects of blood platelets, thereby lessening the possibility of artery-clogging blood clots." The article continues "... The fact that Frenchmen consume vast quantities of red wine may explain why heart disease is two to three times less common in France than in the U.S."

Don't forget the label design contest for the King Edward's Cellars, which will commence in September. (The prize will be a half case of our soon-to-be famous wine).

Have a relaxing summer and be ready for the Grape Festival in October. Cheers!
