PARKING LOT THEFTS

In recent weeks, a number of break-ins have occurred in the student and staff parking areas. Although Security does regular patrolling of the areas, it would greatly help if everyone would ensure that valuables are not exposed in their cars.

UNITED WAY CAMPAIGN

The King Edward Campus Campaign including Central Administration and Continuing Education all working together in the "united way" is looking for volunteers to assist with various events planned between October 15th and end October 31st. Please contact the Chairperson, Sandra North, local 721 if you have a few hours to donate.

Did you know that?...

... Aids Vancouver, Battered Women's Support Services, B.C.'s Children Hospital, B.C. Parents in Crisis, Canadian Mental Health Association, C.N.I.B., Crisis Centre, Downtown Eastside Seniors Centre, Family Services of Greater Vancouver, MOSAIC, Vancouver & District Public Housing Tenants' Association... are just a few of the agencies supported by the United Way. What makes the United Way so special is that if there wasn't a United Way campaign, each agency would have to fundraise much more on its own, with probable loss of program efficiency and undoubtedly higher overall cost to the community. Plus you can choose to which agency you wish your donation to be designated!! Read the KEC Times next week to find out how!!!

THOUGHT FOR THE DAY...

Kovac's Conundrum... When you dial a wrong number, you never get a busy signal.

NO, I'M NOT AVOIDING YOU!

The new phone system at City Centre seems to be working like a charm. One small drawback, however, concerns certain people with certain types of answering machines... such as the one in my office. Apparently the tone of the actual phone ring isn't enough to trigger my machine. No big deal, except that my answering machine also serves as my receptionist on those many occasions when I am in meetings, off campus or

ACTIVE LEARNING

with John Parker

The main result of introducing active learning into a classroom is that passive listeners soon become active learners. This workshop offers an alternative to lecturing, providing instructors with many practical ideas.

John Parker's workshops on active learning are in themselves active-learning workshops. During this one-day event, participants will be engaged in a series of workshops, applying each one to their own classroom needs. The workshops are practical so that participants leave with dozens of specific ideas that they can implement into their classes. Discussions of theory will be kept to a minimum.

Instructors will discover that in an active-learning classroom *"the teacher does not teach, but simply provides an opportunity for students to learn"* (Albert Einstein).

Since his retirement from the faculty of VCC, John Parker has given many workshops on active learning throughout North America and England. He has won teaching awards for his innovative approaches from the Association of Canadian Community Colleges and the University of Texas. John has authored six textbooks and is currently Senior Consultant with McDougal Littell for their composition series.

For those who may be interested in purchasing instructional materials, John Parker's book, Workshop for Active Learning, will be available during the workshop at a reduced cost of \$15.00. The book includes over 200 workshop ideas. There will also be a computer disk available, which includes 75 handouts for students that instructors are able to modify for their own needs. The cost of the computer disk is \$5.00.
