ON-CAMPUS SECURITY

Security personnel can be contacted in several ways:

1. Dial local 204 - or
2. Until 8:00 p.m. dial the console (0) and ask the operator to contact security via the two-way radio.
3. After 8:00 p.m. dial the voice pager, number 667-2638. Announce your precise message into the phone. It will be recorded and, after you hang up, it will be transmitted to security. If you are calling from on-campus, remember to dial 9 first and then the pager number.

After-hours access to the building

You must contact security to inform them of your intentions. When you arrive at the campus, security personnel will ask to see your VCC identification card, which displays your photograph. Should you require such a card, make arrangements to obtain one by contacting D. Moutter, KEC Office Manager (local 736).

CURRENT DEVELOPMENTS IN COMMUNITY EDUCATION

Instructor's Survival

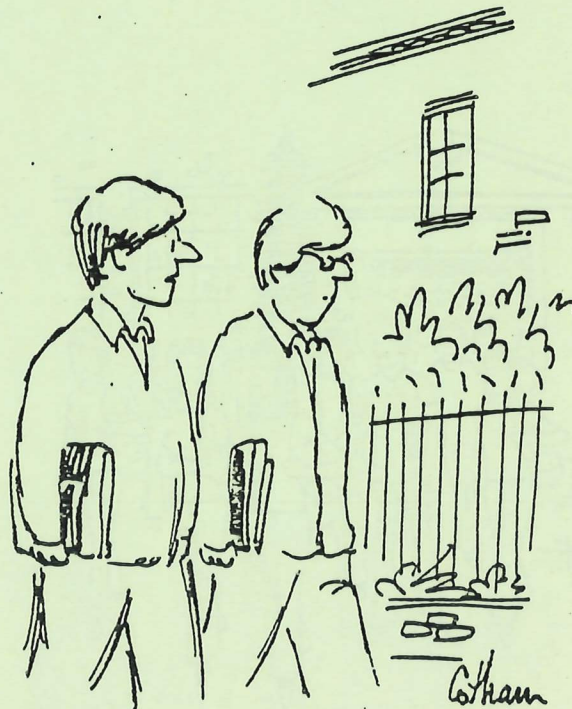

8:00 - 9:00 p.m. Wednesday, September 7, 1983 has just been confirmed by the Knowledge Network for a live interactive TV program for your C.E. instructors. Featuring Peter Renner (author of The Instructor's Survival Kit) and other adult educators. The program will focus on practical suggestions and ideas for instructors to help them prepare for the start of their classes, and to get classes off to a good start. It should be of interest to new and experienced instructors alike. This is an experiment using the Knowledge Network as a means of providing professional development in teaching adults for instructors throughout the Province. Your reactions to this first program and its future potential would be appreciated.

MISSING!

On Saturday, after the V.I.A. Opening Party, a large wicker basket, full of holly boughs, got up and walked away. The owner of the basket would like to have it returned (by all means keep the holly!!). Please leave the basket with Keith Oberding in Office 3216. Thank you.

"I consider myself well prepared for college. My family has money."

My most sincere thanks to all of you for the lovely tea on Wednesday last. Words cannot express my feelings of warmth, friendship and gratitude for your thoughtfulness.

Today is my last day at King Edward Campus and my last edition of the Times. I will miss the personal contacts, the excitement and challenge of the never-ending changes,

Looking back, I think the move to our new campus was the most exciting event of all - especially after the long-anticipated wait. I do regret having so little time to enjoy our beautiful new surroundings, but am happy to have had the opportunity to share the new experience with all of you.

SUBJECT: Air Quality K.E.C. - 3rd Floor Classroom Block

*copy JDBrown
KET wF*

This is to confirm that last week action was taken to improve the quality of the air in the 3rd Floor of the classroom block, (the area of complaints received).

Filters were changed since the previous filters were installed 4 - 6 weeks ago and were found to be quite dirty. Under normal conditions, filters would only need to be changed approximately every 3 months.

The circulation fans were switched to run continuously instead of being shut-off at night. This should assist in cleaning the air of fine dust.

The men carrying out the balancing of the ventilation system were working on the remaining areas of the 3rd floor and should be finished in 2 or 3 days.

In discussion with Al Douglas of K.D. Engineering, we agreed that we should wait for a period of about 2 weeks before checking with the people who made the complaints, to allow some time for them to experience the improved situation.

♦ I have confined the above remarks to the 3rd floor classroom block, although similar actions are being taken in other areas.

I hope this information will suffice for the present. I will report on any other significant action in this area when appropriate.

"I suggested you spend your time more wisely, Harold. I didn't tell you not to come to school!"
