## DIESEL FUMES IN CLASSROOMS

I have commissioned the consulting engineers, Keen Eng. Ltd., to produce recommendations to reduce or eliminate the problems which relate to various emissions from the shop areas of the "heavy trades" and their proximity to air intakes supplying ventilation to classroom areas.

Yesterday I had a meeting with the architects and Keen Engineering together with John Lauder and passed on the various concerns which the college had with regard to these matters. They will begin immediately to find possible solutions to our problems.

"The driving test was a snap. It was the stopping test I had trouble with."

### FIT TO A 'T'

Boy, does it ever pay to have a physically fit Financial Aid Officer to hurdle questions on the floor with such ease and stamina. The turnout at yesterday's workshop organized by Counselling Career Centre clearly signifies a need to have this orientation on an on-going basis. When Rita's ready for another workout, aerobics a la Financial Aid will be ready to take up the floor once again.

Counselling Career Centre looks and probes for better ways to serve.

### UNITED WAY

I would like to thank everyone who helped to make the bake sale such a success. A special thank you to all the bakers and those who helped to sell the goodies. We had a number of our people from Regional donate baked goods. A total of \$170.00 was made on the sale, all of which goes to United Way. This brings our total to \$870.00 from pledges and the bake sale.

At this time I would like to remind everyone that we will be having our Rainbow Sale on Wednesday, October 12th. This is a good time to clean out your cupboards and bring in your articles of clothing, books, etc. that you do not need anymore. Please bring them to Marion Farmer, 4th floor - Student Records, United Way Campaign Chairperson.
