FACULTY AND STAFF MEETING

Elsewhere in today's Times, I believe there may be an item inviting us to a pancake breakfast on Friday, December 23rd sponsored, as in other years, by our Counselling Department. (At least that was my understanding when Dave Greenall spoke to me about it.) The breakfast may go on until about 10:00 o'clock.

At 10:30 I am inviting faculty and staff to meet with me (also in the faculty dining room; there will be seating for some, standing room for others - but the meeting will be short) before we go back to our work areas!!! to do these last few things that need doing before Christmas ...and then to the V.I.A. Christmas finalé - at this campus this year.

MERRY CHRISTMAS AND A HAPPY NEW YEAR TO ALL!

ERROR - ERROR - ERROR

The announcement given in the last issue of the Times should have read -

STAFF XMAS PARTY
DEC. 16TH - 2:30 p.m.

The VIA party is the following Friday, December 23rd. Sorry folks.

PANCAKE BREAKFAST

"Will I be able to get my Annual Pancake Fix from the counsellors this year?"

"What will you do without the facilities of the staff lounge at Oak Street?"

"No quiet room, no beat-up chairs, no inconvenience! What will you do?"

Fear not. In rain or sleet, snow or inconvenience, the Counsellors will come through.

Technology has caught up with us and we will have to deal with more comfortable quarters.

Be prepared to eat the same old marvelous pancake fare once more:

On December 23/83
In the Faculty Cafeteria
between 8:00 - 10:30 a.m.

Domco is sharing in this year's Pancake Fix. We thank them in advance, and you, too.

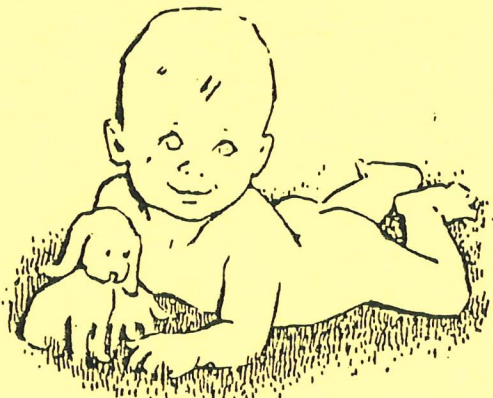

Plan to Partake in the Pancake Phantasamagorial.

COMPUTER LAB.:

The six unit computer lab. in the library is available for faculty and staff use whenever not booked by a registered student. During the holiday period, we are also extending the free use to all KEC students who would like to try their skills.

In addition to the basic programmes, we have added a few games packages for the holiday season.

Please ask at the Library or at Continuing Education for further details.

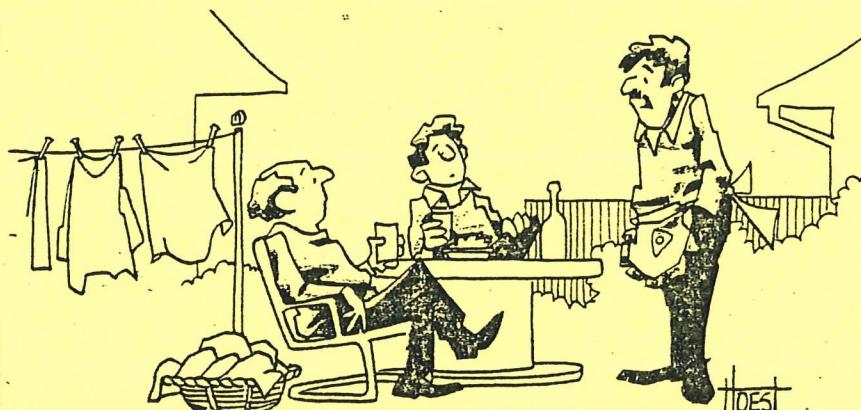

ACCESS TO LIBRARY MATERIALS:

Would ALL FACULTY & STAFF please observe the areas restricted to Library Staff only, and ask a member of staff rather than helping themselves. Several items have gone missing recently - if you have "borrowed" tapes or other materials, would you please return them NOW to the library - no questions will be asked!

LIBRARY FINES AND OVERDUES:

The library will be holding a FINES AMNESTY period from December 19th to December 30th, when materials may be returned without penalty.

Starting January 3rd, we will revert to normal procedures, which may include passing names to a Collection Agency for those who ignore requests to return material.

P.C.

"Well, this will be my last brunch, guys. The little woman got transferred."

ENVIRONMENTAL UPDATE

At the Monday meeting of the Senior Facilities Committee, it was reported that the time required to complete the extension of the diesel exhaust would be two weeks.

Keen Engineering advised that the use of precipitators in the Auto-Body shop would not be a good application of this type equipment. It was recommended that the overhead doors to the shop be kept closed to preclude the rest of fumes discharged from the Auto Body shop reaching any air intake.

To address the vibration/reverberation problems being reported on the 2nd and 3rd floor areas above the diesel operations, it was decided that isolating padding would be installed under diesel engines. It was agreed that once the extended stack is in place, acoustic consultants would be engaged to review the matter. The installation of filters (alumina potassium permanganate or charcoal) on the intakes would be very costly. The proposal to extend the air intakes on the north side upwards and along the roof towards the south would be unsightly. Because the final air analysis reports from the W.C.B. and the College consultant, have not yet been received, it was decided to defer action regarding the intakes.

Preliminary reports regarding the quality of air fail to detect anything alarming. Keen Engineering are preparing a design for an exhaust system associated with running of the dynamometer in the Auto Mechanics' area. Buildings and Grounds will carry out the work pending approval of the drawing for the hook-up exhaust for the open truck bay of the diesel area.
