VOLUME 2 : NUMBER 31 : AUGUST 03, 1984

AUG - 9 1984

CANADA MANPOWER INDUSTRIAL TRAINING PROGRAM

Mr. Jack Cooper, formerly the Executive Director of the Occupational Training Council, is now on site. He is one of the provincial Canada Manpower Industrial Training Program Coordinators working on the development of job experience and training packages with employers in the City of Vancouver. He is presently working in the O.L.I. office, located adjacent to the Ministry of Labour office.

HWR

VCC-VANCOUVER VOCATIONAL INSTITUTE LIBRARY

VACATION

I will be on vacation from 1984 August 7 - 17, inclusive. During my absence, Dr. Lamoureux will be acting in my stead.

HWR

MEL

LIBRARY ACQUISITIONS

The following books are now available in the Library:

North American Radio-TV Station Guide
Bowker/Bantam 1984 Complete Sourcebook of Personal Computing
The Handbook Handbook
Programming the Z-80
Dental Implants
Modern MOS Technology

PHOTOCOPIER IN ROOM 220

Departments that do not have photocopying facilities may use the photocopying machine presently situated in the Program Development Department (Room 220). Access to this room is by obtaining the key from Carole Hector. The machine may be used to copy up to a maximum of ten copies per original. Items requiring more than ten copies should be sent to campus printing.

BD

COMMUNITY SERVICE AWARD

The VVI has just received a Community Service Award from the Canadian Red Cross. The Blood Donor Clinics held at the VVI have contributed greatly toward replenishing the blood bank at various times.

GC

FOOD TRADES

Too many dishes are removed from the Food Trades Department and not returned. If this continues, the cost of food will be affected. Please keep an eye on each other and remind everyone that tableware should be kept in the Food Trades Department.

AS

COURSE PACKAGES - O.L.I.

Effective 1984 September 30, all orders of 20 copies or more per item will qualify for a 15% discount if 60 days' lead time is provided. The lead time will allow O.L.I. to consolidate printing and, consequently, to offer this discount. Anyone planning large orders for January should place them by the end of October.

In addition, in the near future, the Post Basic Nursing Group will be occupying the former Program Development space.

KD

WORLD CONGRESS ON EDUCATION AND TECHNOLOGY CALL FOR PROGRAM PROPOSALS

THE EVENT

The World Congress on Education and Technology, in Vancouver, Canada, May 22-25, 1986, will consider the implications and impact of technology on education and society in general. Up to 10,000 educators, technologists, government representatives, philosophers and futurists are expected to attend.

THEMES

In order to facilitate discussion, the World Congress is organized around seven themes:

TEACHING AND LEARNING	INNOVATIONS AND APPLICATIONS
MANAGEMENT AND TECHNOLOGY	SPECIAL NEEDS AND INTERESTS
EMPLOYMENT AND TRAINING	POLICY AND PLANNING
THE FUTURE SOCIETY	

These themes will promote the face-to-face contact of a smaller meeting while encouraging the diversity of a comprehensive conference.

PROGRAM FORMATS

A variety of stimulating learning experiences for programs in each of the themes is being sought. Each program will be approximately 75 minutes long and will be repeated a number of times throughout the four-day event.

In submitting a program proposal, the following types of formats can be kept in mind:

workshop — featuring interactive participation

address — a talk, followed by a question period, perhaps accompanied by a prepared paper

demonstration — of a new approach

forum — brief presentation, followed by discussion

clinic — a "hands-on" approach to skill development

debate — discussing two sides of an important question

panel — different speakers, different aspects of a topic

PROGRAM PROPOSAL

Each program should contain the proposed title, desired learning outcomes for the session, brief outline of content, and program format. Only proposals in writing will be considered and should not be more than two pages in length.

Deadline for submission is September 15, 1984.

RESOURCE PEOPLE

Return air fare to Vancouver, accommodation/food during the World Congress, and a small honorarium will be provided to all approved resource people.

Program proposals and additional information requests should be directed to:

David Rivers, Congress Director
World Congress on Education and Technology
1155 West 8th Avenue
Vancouver, British Columbia, Canada
V6H 1C5

The World Congress on Education and Technology is a project of the British Columbia School Trustees Association.

EXAMPLES OF TOPICS UNDER EACH THEME

TEACHING AND LEARNING

- CAI/CAL
- Teaching Programming/LOGO, etc.
- Research
- Teacher Education
- Learning Theories
- Disciplines — various

MANAGEMENT AND TECHNOLOGY

- Education Administration
- Administrative Uses:
 - finance
 - scheduling
 - communications
 - data base
 - office functions
- Curriculum Control
- Keeping Current

EMPLOYMENT AND TRAINING

- Vocational Education
- Training for Employment
- The Future Workplace
- Job Creation

THE FUTURE SOCIETY

- Technology Affecting:
 - work
 - leisure
 - economy
 - social relations
 - environment
- Acceptance of Technology
- Social Impact

INNOVATIONS AND APPLICATIONS

- Space
- Computers
- Communications
- Telidon
- Videodiscs
- Health Medicine
- New Initiatives/Ideas
- Translation Devices/Languages

SPECIAL NEEDS AND INTERESTS

- Distance Learning
- Special Education
- Lifelong Learning

POLICY AND PLANNING

- The Right to Privacy
- Education's Goals
- Copyright
- Control
- Technology and Creativity
- Values
- Sharing Ideas, Information and Technology
- Standardization
- Preserving Cultural Identities
- Global Coordination

**TEACHING
& LEARNING**

Theories of learning, new designs for curriculum, teaching about and teaching with computers will be discussed as this theme focuses on the interaction between the new technology and the classroom.

**MANAGEMENT
& TECHNOLOGY**

The challenge inherent in managing new technologies affects everyone in the educational community. Administrative applications—financial reporting, scheduling, communications, data banks, office functions — will undoubtedly be explored by Congress participants.

**EMPLOYMENT
& TRAINING**

Technology is creating new opportunities for employment and career preparation. An indepth look at these opportunities in the context of the changing workplace will be offered.

**THE FUTURE
SOCIETY**

Congress participants are promised a crystal ball into the future, looking at how technology will affect our work, our play, culture, the environment and how we will get along with each other.

**INNOVATIONS
& APPLICATIONS**

Hardware and software take center stage in a world-class exhibit and a variety of learning sessions designed to demonstrate innovations in technology and unique applications to education.

**SPECIAL NEEDS
& INTERESTS**

We will look at unique applications to serve the specialized needs of individuals, including the education of the physically and mentally handicapped and the use of technology as a means of bringing people together.

**POLICY &
PLANNING**

The effects of technology on human values and goals; questions of privacy, control and ethics in an information society...these are all part of a multi-faceted dialogue aimed at "rounding out" the issues of education and technology.
