HOLLYWOOD HERE WE COME

You probably noticed the movie cameras around campus and that we experienced a temporary name change to the 'Anderson Technical Institute'. Well the movie being filmed on location was "Stranger in My Bed" starring Lindsay Wagner, and as well as the outside shots, the ninth floor Nursing Wards and the recently renovated Room 161 (formerly Welding) were used.

The film is a 'made-for-television' movie and should be airing this fall sometime. As well, George Clark would like to thank everyone for their cooperation in adjusting to the break in routine.

BLOOD DONOR CLINIC

Again the VVI Blood Donor Clinic was a success and a grateful and sincere thank you to all who showed up to donate.

STAFF UPDATE

- * Janet Corns will be returning to work June 2 as Mrs. Janet Edwards. Congratulations and welcome back!
- * And Raj Bhatti has already returned to work as Mrs. Raj Cheema and it's good to have you with us again too, Raj.
- * Another face that we have missed for a while is John Vandenakker who is now 'back' into the swing of things.
- * Don't look for Charise Bryan working in the Registration/Records area after June 2 -- she will be filling in at Financial Aid for awhile.

(Do you have some interesting news about a staff member that we should know about or recognize? Forward your tidbits to the VVInsider by Wednesday afternoons.)

QUOTE OF THE WEEK

Everyone is a damn fool for at least five minutes everyday.
Wisdom consists in not exceeding the limit.

LIBRARY FILMS

Summer is here and the Library Film Series will end June 24 . . . with a whole new series beginning in September.

Film for June 10 . . . THE DEVIL AND DANIEL MOUSE

Jan is a young folk-singing mouse who sells her soul to the Devil in exchange for pop star fame and fortune. Riding high as "Funky Jan", queen of the disco beat, she neglects her old friend and former partner Daniel, etc, etc.

Film for June 17 . . . THE DAY WE BEAT THE RUSSIANS

In 1955, the Penticton Vees won the World Hockey Championship Cup. This documentary tells of the three Warwick brothers, and their rise from humble beginnings, when they used to practice hockey with homemade sticks and road apples, to their peak in Europe and their subsequent decline. Interviews with the three brothers tell a story of hockey and human drama.

Films for June 24 . . .

HOPPITY POP

An animated film in which color shapes dance to calliope music. A Norman McLaren film.

THE TWITCH

An award-winning animated cartoon about intolerance and where it all ends. The illustrations and dialogue are light and amusing, but that does not mask the moral of the story: that unless we tolerate individual differences - even the king's nervous twitch - then peace may only come when all are behind bars.

A TOKEN GESTURE

An amusing animation film that gently pokes fun at the stereotyped attitudes that are applied to the sexes.

**IS THAT
THERE NEVER

INSTRUCTOR TRAINING PROGRAMS

The VVI Program Development Department offers three program which provides the skills, knowledge, and experiences to improve instructional competence.

The three programs are:

Train the Trainer, Instructor Training, and Computer Awareness and Applications.

The Train the Trainer is designed to provide the technician, technologist, tradesperson or professional with the skills and knowledge necessary to plan and develop course materials, design and deliver instruction and evaluate learning outcomes.

A college certificate is awarded on successful completion of the four course programs: Program Design, Giving of Instruction and Evaluation of Learning and a Practicum.

Total length of the program is 120 hours.

The Instructor Training program is an advanced training program having two levels. Level One consists of the three Train the Trainer courses; Program Design, Giving of Instruction and Evaluation of Learning. Graduates of the Train the Trainer program may transfer their course credits to ladder into level two of the Instructor Training program.

Level Two provides a further four courses: Adult Development and Education, Evaluation of Instruction, Instructional Media Use and Computer Support Applications.

Successful completion of levels one and two of the 210 hour Instructor Training program provides the equivalency of the Ministry of Post Secondary Education Instructor's Diploma and fully meets the requirements of the VIA Collective Agreement for Instructor Training.

A College Certificate is awarded on successful completion of the program.

The Instructional Computer Awareness and Applications program is designed for people in all areas of education. The one month program has three mandatory and two optional courses that cover aspects of computer literacy for educators, their support staff and administrators. In order to earn a College Certificate, individuals must complete four of the courses as listed: Introduction to Computer Support Applications, Word Processing, Fundamentals of Information Processing and either Instructional Support Applications or Introduction to Programming in BASIC.

Fees for the above courses may be waived for VCC personnel. Credit for equivalent educational courses taken at other colleges and universities will be considered for exemptions towards the above programs.

For further details contact Brian Dwyer, Department head, Program Development Department (681 8111 local 243).
