### ARE YOU AN ENTREPRENEUR?

This program is designed to help the viewer decide if he or she is an entrepreneur. The program explores three questions: What is an entrepreneur? What is an entrepreneur's role in starting a business? What are the personal qualities usually found in successful entrepreneurs? Showing that entrepreneurship is a career opportunity worth considering, the film presents the costs and rewards of self-employment while examining a variety of career goals. Interviews with successful entrepreneurs provide information about independent career choices.

### WHAT WILL YOUR NEW VENTURE DEMAND?

The responsibilities of running a business fall into several categories of which the entrepreneur is only one. This program looks at managers, researchers, accountants, engineers and other people whose skills are as essential to the success of a new venture as those of the entrepreneur. The program helps the individual assess what role is best for him. It challenges people to think about their own strengths and interests, to recognize the need for a division of responsibility and to plan accordingly in making career choices.
