COMPUTER TELEPHONE NUMBERS

Do you access the computer system via the telephone lines??

Effective Monday, May 4, all the current dial lines to the Prime Computer will be capable of both 300 or 1200 baud.

When you first make your connection, you will have to press RETURN a few times so the computer can determine the speed you are using. Once you receive the Login message, everything will be as normal.

WHO WAS THAT?

MAY 05 1987

Hey, hey, hey . . . it was somebody's birthday!

Peter George of Power Engineering turned 40 on April 29th.

Congrats and celebrations Peter!

A NOTE OF THANKS

On behalf of Dolores Callaghan and myself, I wish to thank the many departments for their cooperation in welcoming our tour groups.

On average, we take one group per week around the campus to view the facilities and the participants are most appreciative of the opportunity to view the classroom settings.

We are grateful for the time instructors take to acquaint participants with their programs!

SUBJECT: FACULTY EXCHANGE OPPORTUNITIES

* * * * *

Faculty exchange opportunities are now possible through an HSU membership in the **FACULTY EXCHANGE CENTER**.

The **FACULTY EXCHANGE CENTER (FEC)** was established in 1973 in order to facilitate the movement of professional persons in education. The Center makes it possible for interested professors to exchange positions with colleagues in their field from institutions both on this continent and overseas where the language of instruction is English. The FEC serves as a clearinghouse and in the Fall publishes a directory containing the names of the instructors as well as their institutions, rank, and field of specialization. The directory also mentions the region where the faculty members prefer to teach and travel, and if they are willing to exchange their house.

Upon the receipt of the directory, members match themselves with one or more colleagues and initiate correspondence with them to work out the details of exchange. When these arrangements have been completed, further efforts of the persons involved working through their Department Chair and Dean, work out an agreement leading to an exchange. (Exchange forms are available in the Office for Academic Affairs.)

In recent years the FEC has had members from American and foreign institutions covering all the major disciplines. FEC registrants have been from all parts of the United States including Guam, Hawaii, Alaska, Puerto Rico, and Virgin Islands, as well as from Canada, Hong Kong, New Zealand, Australia, New Guinea, Israel, Egypt, Spain, Sweden, France, Greece, India, Holland, Ireland, and the United Kingdom.

D A T E L I N E S

The FEC Directory and Supplement will be published annually in the Fall. Upon registration, the registrant will be mailed the current issue(s). Registrants' names will be included in the issue(s) of the following Fall, which they will also receive. **Deadline for inclusion:**

June 30. [SEE FACULTY -- forward your registrations to LINDA JONES at Central Administration for assembly and submission. DEADLINE: JUNE 12, 1987.]

If you have further questions, please contact Pat Vanderklis, extension 3632, in the Office for Academic Affairs.
