VCC ALUMNI ASSOCIATION

VCC-VANCOUVER VOCATIONAL INSTITUTE
LIBRARY

JUN 18 1987

SUCCESSFULLY LAUNCHED

The Vancouver Community College Alumni Association will hold its first Annual General Meeting June 17, from 7:00 pm to 9:00 pm at VVI in the Staff Lounge, Room 300. This will be our second members function since our Association was incorporated in April of this year.

On May 14, forty people attended the Founders Club Meeting which inaugurated the Association with a Toast proposed by VCC's own Toastmaster, J.J. Denholm. The Alumni Association has enrolled 220 members since the membership campaign was kicked off in April. Our thanks to those of you who sent us the names of your alumni contacts. Your support is essential to our success.

We would like to encourage faculty and staff to meet this enthusiastic group of individuals who represent our three campuses in the new Association. If you are able to attend the Annual General Meeting please contact Netty Tam at 875-1131, local 353 to R.S.V.P. no later than June 15th.

If you have upcoming events or programs you would like to promote to the Alumni there will be a literature table for display of College information. Please ensure your materials are in our hands no later than June 15th.

29 May 1987

Dear Colleague:

Outreach education has been expanding rapidly in many post-secondary institutions during the past decade. We are sponsoring a one-day seminar entitled Outreach: An Alternative Model in order to share Grant MacEwan's experience in establishing a new Outreach Model with fellow post-secondary educators.

Resource people at the seminar will represent constituencies in the College closely affected by outreach education. After an introduction by the Vice President Academic, participants will be given an overview of our outreach model and in a relaxed seminar format, will be able to ask questions and obtain information on the outreach experience of our College.

We have enclosed a number of brochures for you to pass along to any of your faculty or staff who may be interested in attending.

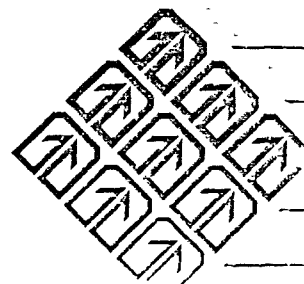

Thank you.

Sincerely,

GRANT MACEWAN COMMUNITY COLLEGE

Joyce Benders
Faculty Development Coordinator

cc: Wilbur Collins, Asst. to VP Academic

Convention Inn also has a bus service from the
International Airport for a fee of \$6.50 (one way).
Unfortunately, they do not have the same service to
the Municipal Airport.

OUTREACH: An Alternative Model

The GMCC Experience

Since its inception in 1971, Grant MacEwan Community College has been involved in outreach education. Originally this function was provided by the Continuing Education Division which operated as a relatively autonomous unit -employing and paying its own staff and developing and delivering educational activities to meet identified needs and interests.

In 1981 the college moved to a new Outreach Model under which each of the divisions within the college operates its own outreach program as an extension of daytime programming.

In the area of budgeting, total revenue from outreach and community education now exceeds 20% of the total operating revenue of the college. It is projected that outreach will continue to generate an increasingly significant portion of the college's operating revenue budget.

In this one day seminar, we will examine the outreach education system experience over the past 6 years. A variety of Grant MacEwan faculty and staff will address their role and experience with outreach education in an honest and open manner.

We do not claim the expert role, nor do we have all the answers. We are willing, however, to share our EXPERIENCE with those who are interested in or who are actively developing their own outreach education program.

Participants will examine the components of the outreach education system of Grant MacEwan. As well, time will be allowed for participants to share their own experiences and concerns and to examine some of the key questions about outreach education.

This seminar is designed for both faculty and administrative participants, and a special offer is made to institutions who are interested in sending a pair of representatives.

A ONE-DAY SEMINAR

Friday, September 25, 1987

OVERVIEW OF GMCC OUTREACH PROGRAM

- structure
- historical perspective
- general theory
- current outreach model
- structure
- operation
- coordination

IMPACT OF OUTREACH ON:

- college resources
- instructional staffing
- organizational structure

ASSESSMENT OF THE OUTREACH MODEL

- strengths
- issues

VIEWS ON OUTREACH FROM:

- faculty
- program heads
- deans
- vice presidents
- other college constituents

Pat Ness - Instructor, Occupational Health
Paul Otke - Dean, Community Services Division
Peggy Quinney - Dean, Community Education Division

Date June 5, 1987
To Members of Faculty, Vancouver Vocational Institute
From Tom Toulson
Subject Out-of Canada (Overseas) Work/Assignments

During the course of the past year or two, I've received numerous requests or inquiries from private sector firms as well as provincial and federal government agencies seeking qualified personnel for out-of-Canada - international, overseas - contract work. The wording for an agreement with a major engineering firm is presently being developed whereby the firm will first approach VCC - my office - to meet its needs for personnel for out-of-Canada assignments. The requirements of the firm go far beyond the usual parameters of "engineering" and I am confident that we have, within VCC, the expertise to fill many of the wide range of needs that do come up from time to time. To meet the requests, I would like to establish an inventory of faculty interested in taking on short assignments outside Canada. Some assignments are as short as ten days; others can be as long as a year - or two - or three.

To get started on the inventory, I would like to invite members of faculty who wish to be considered for overseas work to complete a single-page form giving the essential details: name, address, campus, academic degree(s), diploma(s), area of expertise/teaching discipline (both primary and secondary), type of work or assignment desired, preferred country(ies) for foreign assignment, etc. In addition, a passport-size photograph is required.

To assist you in preparing your dossier, an 8-1/2x11 form has been prepared entitled "Indication of Expertise and Interest for Out-of-Canada (Overseas) Work/Assignment" and copies are available from the principal's secretary. Please send your completed form to me at the World Trade Centre at Canada Place. (Use the College's inter-campus courier service already in place.)

Finally, I want to assure you that the information you provide will remain confidential within my office and, prior to releasing the information in your dossier to a prospective employer/contractor, I shall first alert the campus principal or dean and the faculty member concerned to ascertain interest in the specific project.
